

Directions to ChiLDLab parking

Our research center is located in **102-103 Cresap Laboratory** at **2021 Sheridan Road**.

Our parking spots are nearby in the **Northwestern Place/Garrett** parking lot.

Driving North on Sheridan Road:

Once you cross Foster St., continue north on Sheridan for 1.5 blocks and turn right at the next stoplight into a parking lot (Northwestern Place).

Driving South on Sheridan Road:

Once you cross Noyes St., continue south on Sheridan for 2.5 blocks and turn left at the next stoplight into a parking lot (and onto the street ‘Northwestern Place’).

Once on Northwestern Place / in the parking lot:

1. Drive east through the lot, towards the lake
2. Take the first right in the lot, just before a brown sign that says the Donald P. Jacobs center is to the right
3. Make an immediate left turn into small parking area
4. Your reserved parking spot will be on your right, marked by a brown research parking sign, and one of our friendly study staff will be there to meet you!

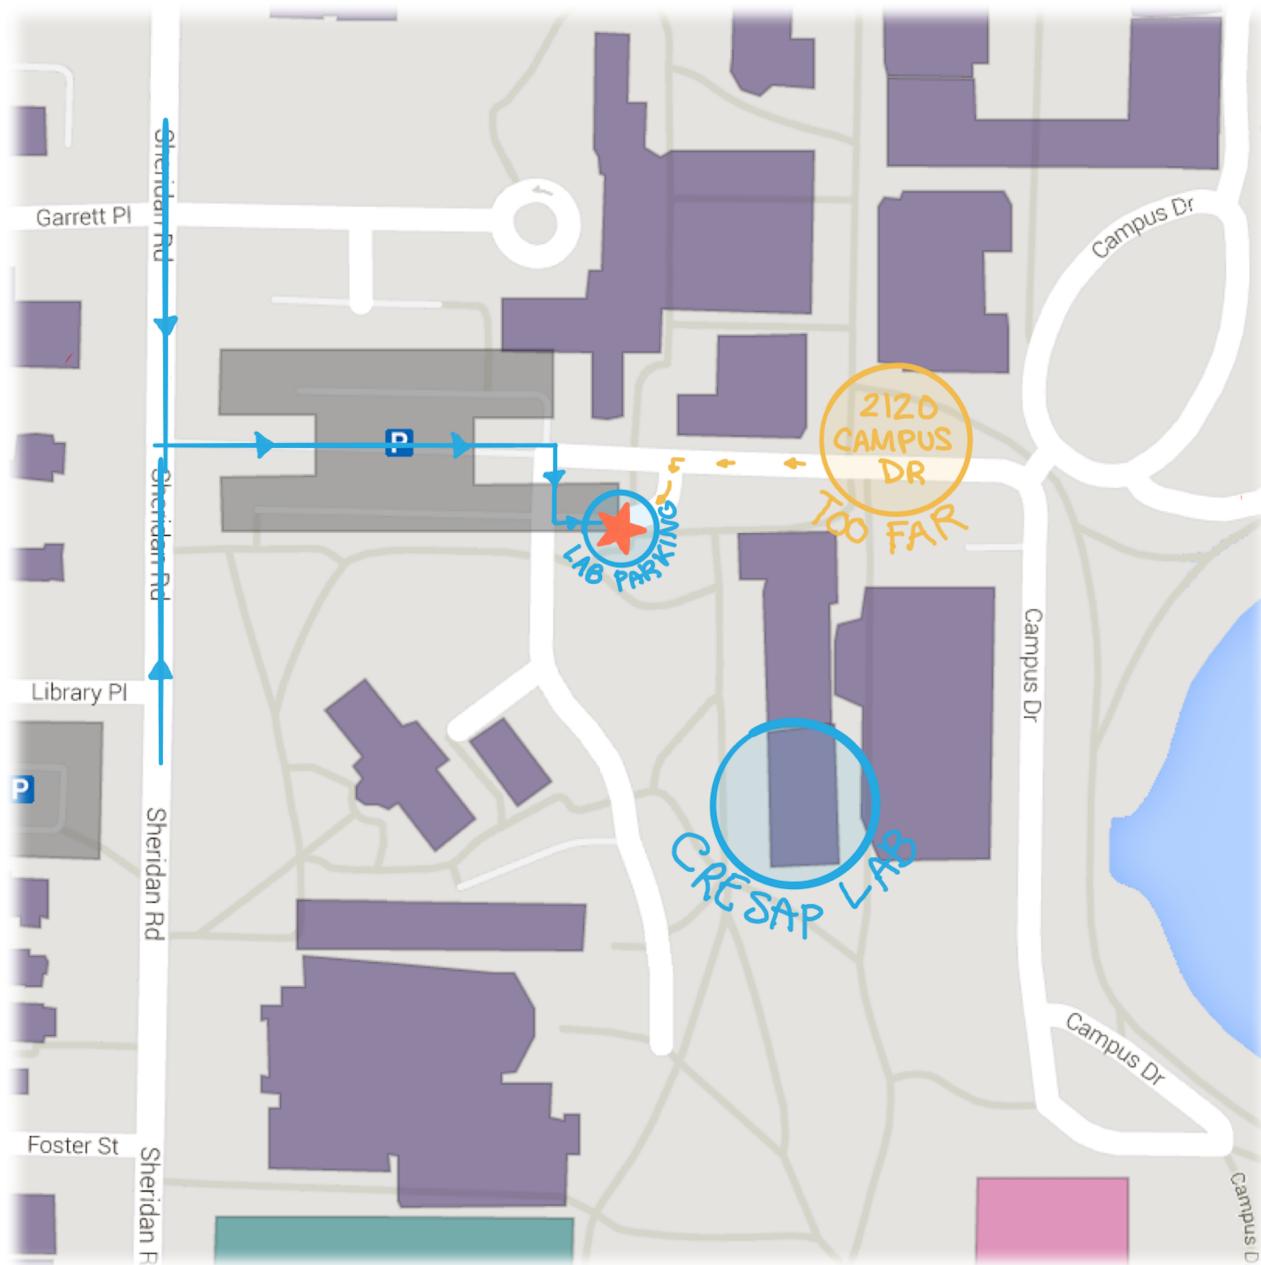

If you reach a brown sign for “2120 Campus Drive” or a pond:

1. You’ve driven too far through the lot
2. Turn around, heading away from the lake
3. Turn left at the stop sign, or the following turn in the lot
4. Look for 4 white research parking signs/spots on the south side of the lot and our waiting research assistant!
